MEMORANDUM FOR: Inspector General

Gordon:

This spread sheet is very helpful. I think it could be improved, however, so that the story jumps out at you a little more. I also suggest that it be made a part of your annual report, perhaps with some narrative to go along with it.

I don't think it too important that OGC, NIPE, ONE, OLC, and the Cable Secretariat have not been inspected within the past five years, although I think you should pick them up sometime when you can do so.

I think it would be wise to pick up the Special Support Staff in DD/S before too long. It is a new unit, and I would be interested in a rather critical evaluation of how it is doing.

In the Clandestine Service, everything seems to be in reasonably good order except WH. I am confident they are doing a fine job, but we should pick this up before too long.

With regard to OER and OSR, the Director has no objection to these being inspected at any time but really wondered whether there might be other things of a higher priority. They should be picked up in due course.

OSA is not a high priority, but we should not let it go for too many more years.
